Population Figures – Status Only (April 1997)

On Crown Land	304
On Reserve	143
Off Reserve	444
Total	**891**

168 First Nation members were reinstated under Bill C-31 as of April 1997. Numbers also include the Lower Post First Nation.

Background
The original people of the area, the Kaska-Dena, were seasonal migrants travelling within their established territory while hunting and gathering food supplies. Their territory included the upper Liard, Frances, and Highland rivers and extended into the upper Pelly drainage in the north to the Dease River in the southwest.

As European explorers crossed the eastern mountains into Kaska lands, trade quickly developed. The establishment of trading posts in the 1800's altered the migration patterns of the aboriginal's who began to settle nearby. Lower Post was the main settlement, although Watson Lake and Upper Liard soon became important centres.

In 1961, the five Kaska First Nations in the area were amalgamated into the Liard River First Nation and a central settlement and administrative base was established in Upper Liard. In 1985, a referendum decided that the First Nation should break into three independent groups. Although the Dease River First Nation gained full status as a separate First Nation in 1988, the Lower Post group has not yet gained formal separate status from the Liard River First Nation.

Shortly after the Second World War, the Department of Indian Affairs began building central settlements for aboriginal people. Upper Liard was established as the main community for the Liard River First Nation. Watson Lake has since become the regional service and business centre for the area, with forestry and energy exploration adding to the economic growth.

Watson Lake is an incorporated town with June 1997 population of 1,791. Many First Nation members live within Watson Lake town limits, or on the outskirts of the town in the communities of Two-mile and Two and a Half Mile villages. Upper Liard, an unincorporated village, has a total population of about 130. Over 85 residents are First Nation members.

First Nation Land Acreage and Status
Reserve Land: 1,432.5
Land Set Aside: 328.045 Ha. In and Around Watson Lake.
Parcels of Land Set Aside: 23

Land Claims and Self Government
Negotiations of the Final and Self Government Agreements pursuant to the Umbrella Final Agreement have commenced.

Health Care
Health care is provided through the Parhelion Medical Clinic and through the Watson Lake Hospital. The clinic is currently staffed with three full-time physicians and boasts a pharmacy to serve residents. The hospital has a full-time Nurse in Charge and seven nurses. Public Health services are run out of the hospital. They are staffed by two full-time nurses who provide service to Watson Lake, Upper Liard, and Lower Post. The hospital is also responsible for the homecare nurse who works closely with the local seniors group.

Social Services
Other community social services include two full-time social workers, a probation officer, a full-time resident counselor from Yukon Family Services, and a shelter for women and children. A part-time Housing Association person is responsible for Yukon Housing. Native courtworker services are provided through the Liard First Nation.

Police/ Fire
Local trained volunteers provide ambulance service, while the RCMP provides policing for the community from the detachment. It is staffed with nine members and is responsible for Watson Lake, Lower Post, Upper Liard, and the surrounding area. A full-time fire chief and a large group of volunteer members provide fire department services.

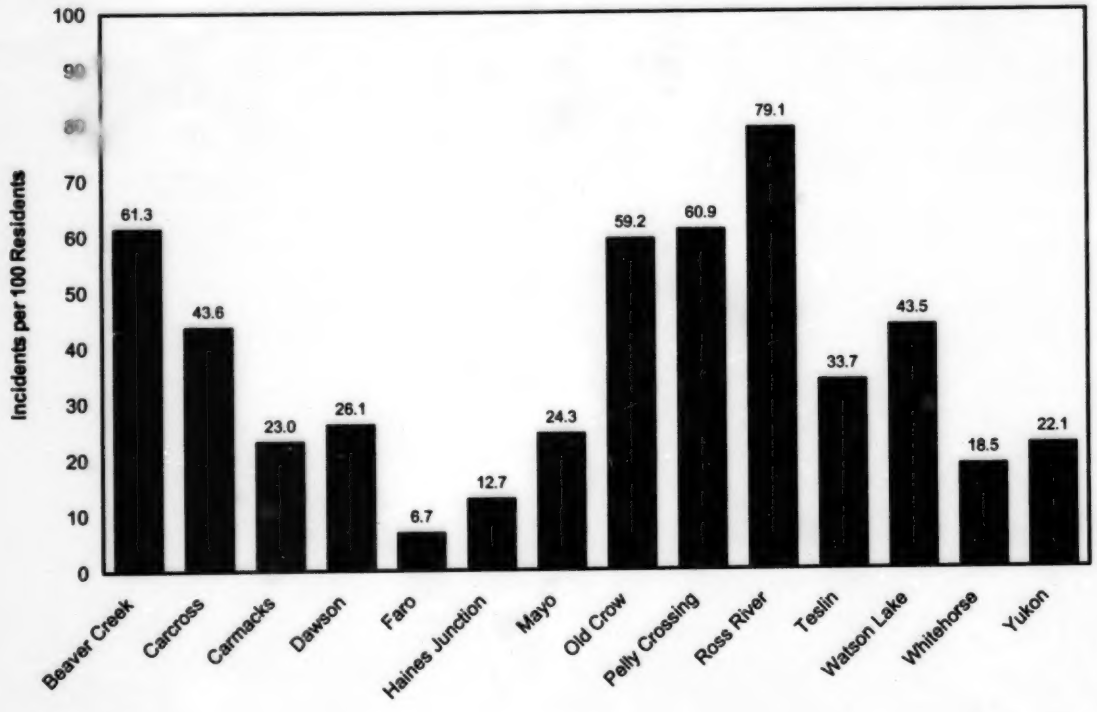
Source: Royal Canadian Mounted Police (RCMP), Yukon



The reported crime rate is equal to the number of reported Criminal Code and drug incidents per 100 residents. It is calculated as follows: the total number of Criminal Code and drug incidents reported in each RCMP detachment area in a given year is divided by the June population of the respective RCMP detachment area, and the result is multiplied by 100.
